WORK EXPERIENCE

Brand & Digital Designer / Founder at studio imjin

Jun 2022 - Present

- Built brand guidelines, color and typography systems, and component libraries for 20+ clients across telecom, fashion, and consumer sectors — including PhoneBox (Canadian MVNO), Rementary (fashion), and Floyd (luggage).
- Designed and developed responsive marketing websites and landing pages using HTML/CSS/JS, handling full execution from Figma to launch and collaborating with developers on component-level handoff.
- Created multi-channel campaign assets across web, social, email, and digital ad formats, adapting core visual systems to platform-specific requirements without losing clarity or brand intent.
- Refined a 2D brand character into a 3D model using AI tools (Midjourney, Stable Diffusion) and established usage guidelines for consistent application across digital touchpoints.
- Managed 2–3 concurrent client projects independently — handling timelines, stakeholder communication, and iterative feedback from brief to final delivery.

Graphic Designer / Design Lead at inspire/d (Crevisse Partners)

Oct 2018 - Oct 2021

- Led visual concept development and campaign identity design for 6+ Amnesty International initiatives — including Write for Rights, Happy Birthday, Rans, and Unusual Trial — spanning websites, EDM, social content, character illustration, and print.
- Contributed to Write for Rights 2020, which drove 35,401 participant actions in South Korea, by adapting global campaign toolkits into localized digital and print assets with accessible information hierarchy.
- Designed campaign landing pages and narrative web layouts, structuring complex human-rights messaging into clear, emotionally resonant visual sequences in collaboration with strategists and developers.
- Produced production-ready artwork for large-format outdoor outputs — including the 'Happy Birthday, Rans' campaign bus wraps, inflatable structures, and public installations — managing vendor coordination and on-site pre-inspection.
- Designed multi-channel content for consumer brands including DESKER and Quaker, adapting campaign visuals across Instagram, YouTube, and Naver Blog for platform-specific formats and audiences.
- Managed interns and junior designers, overseeing task allocation, feedback, and production quality across concurrent projects.

Junior Graphic Designer at Brand Architects

Oct 2017 - Apr 2018

- Designed the main poster and a 50-page exhibition catalogue for Kansong Art & Culture Foundation, contributing to an exhibition with 50,000+ visitors through strong typographic hierarchy and narrative layout.
- Supported early-stage brand identity projects with logo concepts, layout design, and digital assets; prepared print-ready files and coordinated with production vendors.

SKILLS

- **Brand & Visual Design:** Brand systems · Visual identity · Campaign design · Typography & layout · Digital storytelling · Visual hierarchy · Print & digital production
- **Web & Digital:** Responsive web design · Marketing websites · Landing pages · Component-based layouts · Design-to-development handoff
- **Tools:** Figma · Adobe Illustrator · Photoshop · InDesign · After Effects · HTML/CSS/JS · AI-assisted tools (Midjourney, Stable Diffusion, Adobe Firefly, ChatGPT)
- **Collaboration:** Cross-functional collaboration · Stakeholder communication · Agency workflow · Iterative design · Multi-project management · Team mentoring

EDUCATION

- **MFA, Visual Communication Design**, Hongik University GPA 4.33 / 4.5 Mar 2016 - Jun 2018
- **BFA, Communication Design**, Hongik University GPA 4.19 / 4.5 (Graduated top of the College of Design & Arts) Mar 2010 - Feb 2016

AWARDS & PUBLICATIONS

- **GDWEB Bronze Prize** 2020
- **Understandability and Preference of Distorted Election Cartogram**, PROCEEDINGS OF HCI KOREA Vol.2017 No.2 : 1021-1024
